

2BC Children's Ministry Covid-19 Guidelines

As we regather I want to share some guidelines that we need to be observing while we continue to be in the midst of this pandemic. The CDC has given some guidelines for childcare entities to follow. We need to do what we can to keep the children and ourselves safe. The following are the protocols that we will follow:

- All adults will wear masks at all times. Children will as able.
- Children will be dropped off at the check-in stands.
- Each child's temperature will be taken.
- Preschool children will be given a bag with their name on it for diapers and other necessities.
- Individual bags of supplies will be available for each child or preschooler.
(Markers, crayons, pencils, scissors, glue, etc.) Labeled with their name.
- Hand Sanitizer and Disinfecting wipes will be available in each room.
- Hands should be washed at sink with soap or sanitized upon entry and often throughout the time together.
- Tables and chairs should be wiped down after activities.
- Toys used in preschool classrooms should be sanitized after each child has played with it. Bleach water or Disinfecting wipes may be used.
- Any questions or concerns should be addressed with Ms. Barbara or another staff member.

*If you or anyone in the family has knowingly been exposed to Covid-19 please exercise caution and keep your family isolated.
